

Symmetrical STAIR

The World's Finest Stairs

Custom Design

"If you
can dream it,
we can
do it."

AJ Cheponis

What makes us unique

**Some machines didn't exist until
we worked with machinery
manufacturers to develop them.
Many tolerances are now within
1/1,000th of an inch. Our relentless
pursuit for continuous
improvement ensures that we
always deliver the highest quality
product to our clients.**

Our Florida manufacturing facility and showroom are open to builders, architects, designers and developers by appointment.

Symmetrical Stair is a member of the Florida Homebuilders Association (FHBA), the National Home Builders Association (NHBA), the South Florida Manufacturers Association (SFMA), the Gold Coast Builder's Association and the Stairway Manufacturers Association (SMA).

Symmetrical Stair offers a staircase built exclusively by expert craftsmen in a controlled environment using highly accurate design, cutting, assembly, and fastening tools. Today we are fully computerized, using the latest CAD technology and innovative stair building techniques to design and construct our stairs. Our state of the art machinery assures exacting manufacturing quality.

MANUFACTURER OF THE YEAR: Awarded by South Florida Business Journal and South Florida Manufacturers Association, 2004.
